EXECUTIVE SUMMARY

B.Tech Electronics & Communication Engineering student specializing in AI & Data Science at Vel Tech, with hands-on experience building AI-powered and full-stack applications through academic and hackathon projects. Skilled in web development, AI/ML, databases, cloud technologies, and practical product development. Seeking opportunities to apply these skills to real-world software, AI, and cloud engineering problems.

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript, C/C++

Web & Frameworks: Next.js, React, FastAPI, HTML/CSS

AI/ML: Generative AI, YOLOv8, Computer Vision, Speech AI, Wav2Vec2, RawNet

Cloud & Tools: AWS, Amazon ECS, Git, GitHub, VS Code

Databases: PostgreSQL, PostGIS

Other: REST APIs, WebSockets, Data Visualization, Multilingual Applications

SOFT SKILLS

Problem Solving • Team Collaboration • Adaptability • Communication • Rapid Learning • Hackathon/Product Building

SELECTED PROJECT EXPERIENCE

Civic-Sync — AI-Powered Civic Issue Management

- Developed a civic-tech platform for citizen issue reporting, AI-assisted classification, duplicate detection, and location-aware processing.
- Worked with YOLOv8, FastAPI, PostgreSQL/PostGIS, WebSockets, and modern web technologies.
- Designed the workflow around geolocation, automated triage, and real-time civic response.

BharatGov AI — AI-Powered Government Scheme Assistant

- Built a multilingual web platform to help users discover and understand Indian government schemes.
- Implemented state-based discovery and direct access to official scheme resources.
- Developed the application using Next.js and AI-assisted workflows.

VoiceGuard — Voice-Cloning Detection System

- Developed an AI-based concept for detecting synthetic and voice-cloned speech in real time.
- Explored Wav2Vec2-XLSR-53 and RawNet-based approaches for speech classification.
- Focused on lightweight inference and practical edge-deployment considerations.

Nexarivo AI — AI Workspace Platform

- Designed an AI workspace concept combining conversational AI, specialized agents, documents, knowledge management, and automation.
- Built with modern full-stack technologies and a product-oriented approach to AI workflows.

EDUCATION

B.Tech — Electronics & Communication Engineering, Specialization in AI & Data Science

Vel Tech Technical University | June 2025 – June 2029

Class XII — Computer Science

Government Higher Secondary School, S.M. Nagar, Avadi | 2025

CERTIFICATIONS & ACCOMPLISHMENTS

- Crash Course: AWS Basics — KodeKloud
- Amazon Elastic Container Service (AWS ECS) — KodeKloud
- Integrate agents with external systems via MCP in Microsoft Copilot Studio — Microsoft Learn
- Gemini for Data Scientists and Analysts — Google Cloud
- Bharatiya Antariksh Hackathon 2026 — Certificate of Participation, ISRO

LANGUAGES

Tamil — Native/Bilingual • English — Full Professional • Hindi — Limited Working • German — Elementary
